**On behalf of
Lifebox Foundation**

Lifebox Foundation makes surgery safer in low-resource settings. We provide essential training and equipment to hospitals where lack of resources means that life-saving operations are all too often life-threatening. We've made surgery safer for more than 10 million patients worldwide since 2011, but you can help us do so much more.

Give the gift of safer surgery this year - and wear your scrub cap with pride.
